**Mastering iDVD &
iMovie**
Introductory
Short Courses
2008/2009

iDVD & iMovie

This 12 week practical course will give you a broad introduction into iDVD & iMovie

The course is based around real-world practical examples of video production.

The subjects covered include:

Getting into iDVD

From camera to DVD

Themes - menus & customizing them.

Working with drop zones

Adding links

Still images

Working with movies

Editing

Sound design

Export and sharing

File management

iDVD & iMovie

For all these media courses you will have access to the latest Apple Mac Computers and the latest iDVD & iMovie software

The course will help delegates become familiar with and proficient at the above software.

iDVD & iMovie

This course introduces editing concepts and techniques using iMovie & iDVD, and is aimed at anyone wishing to acquire a thorough understanding of the most important features of this Mac based software.

By the end of this course you will be able to use iMovie & iDVD with confidence and produce high quality edited images.

Cost: £275
