

BTEC Level 4 HNC in Construction & the Built Environment

Course outline

The BTEC Level 4 Higher National Certificate in Construction & the Built Environment provides a specialist work-related programme of study that covers the key knowledge, understanding and practical skills required in the construction and built environment sector.

The qualifications are undertaken by part-time learners studying over two years. BTEC Level 4 HNC in Construction & the Built Environment offers a progression route for learners who are employed in the construction and built environment sector.

BTEC Level 4 HNCs provide a nationally recognised qualification offering career progression and professional development for those already in employment and opportunities to progress into higher education.

Entry requirements

- BTEC Level 3 qualification in Construction & the Built Environment
- An A-level profile that demonstrates strong performance in a relevant subject or an adequate performance in more than one A-Level subject. This profile is likely to be supported by GCSE grades at A* to C
- Other related Level 3 qualifications related work experience.
- Mature learners may present a more varied profile of achievement that is likely to include extensive work experience and/or achievement of a range of professional qualifications in their work sector.

Course duration

Two years part-time on a day release basis.

Campus

Les Ozouets.

Progression opportunities

For holders of a BTEC Level 4 Higher National Certificate (HNC) in Construction & the Built Environment we offer an opportunity to attain a BSc (Hons) Degree in two years, in either Architectural Technology or Construction Management.
